

# GREENCROP IRRIGATION

## The new GCEP062W Irrigation Pump Set

Manufactured at our assembly plant near Ely in Cambridgeshire using the highest quality materials and attention to detail, giving built-in reliability and a long-lasting finish.

Greencrop Irrigation can now offer an economy diesel engine irrigation pump set that will drive a single hose reel irrigator fitted with either a rain gun or boom.

HIGH QUALITY MADE IN GREAT BRITAIN

The unit is powered by a water cooled Perkins 422PT 2.2 litre 63hp 4 cylinder silent pack unit. Sound levels for the 422PT power pack are as follows: 1000 rpm 55dBa and 2800 rpm 73dBa both at 7 metres, direct coupled to a Caprari **MEC-MR 65-2/4A 1** - centrifugal multiple-stage pump with horizontal shaft (Q: 64.67 m<sup>3</sup>/h H: 109 m).

The unit comes standard mounted on a 80 gallon (364 litre) fully bunded fuel tank chassis with jack and tractor draw bar. 10/75/15.3 6 stud wheels and mudguards. Hand primer, and our modified 450 waterproof protection control panel for water temperature, high and low oil pressure; high and low water pressure and no flow protection.

The above pump unit can also be supplied mounted on our fuel bowser tandem axle galvanised chassis with mudguards and road lights.

- Manufactured in Great Britain to a very high standard.
- 63hp 4 cylinder engine.
- Caprari MEC-MR 65-2/4A1.
