

GREENCROP IRRIGATION

Layflat Hose Reelers for Clean Water and Slurry

www.greencrop.co.uk

Greencrop layflat hose reelers for clean water and slurry are designed to take the hard work out of hose laying and retrieval.

Developed over many years to give long and reliable operation, Greencrop reelers give you the features you need combined with heavy-duty construction and a powerful hydraulic drive.

Mounted reelers feature a high performance hydraulic drive, with cross line relief protection, and proportional control valves to give maximum efficiency and a long maintenance free life.

The centre of the drum is formed from 400mm diameter x 10mm thick circular hollow section tubing that allows the hose to be wrapped around the tube tight without kinks.

Standard features:

- 1500m and 1800m trailed reelers
- 1200m, 1000m, 800m and 600m mounted reelers
- 600m single spool reeler
- 200m spools carrying 4" or 5" layflat hose
- Rear guide roller to prevent pipe twist
- Painted frame with CAT2 linkage
- Hydraulic drive operated from tractor cab
- Heavy duty construction
