

GREENCROP IRRIGATION

Hydraulic Pumps

GCHHP3 & GCHHP4 Universal Hydraulic Pumps

The HM hydraulic pumps are designed for agriculture and construction, where pumps with the following specifications are needed:

- Independent of electricity
- Can handle large quantities of impure fluids
- Extreme flexibility
- A reserve pump when main pump is not working

The pump can be driven by hydraulic outlets from the farm tractor, back hoe loader or telescopic loaders etc.

The pump is supplied in two versions:

3" pump with 25 ccm. motor with a power of 6 HP
at 40l oil per minute. Flow approx. 1.000-1.500 l/min

4" pump with 40 ccm. motor with a power of 9 HP
at 60l oil per minute. Flow approx. 1.500-2.000 l/min

The pumps are standard supplied with 5 m. PVC hose and 2 x 7 meter ½" hydraulic hoses with quick acting couplings. We offer a whole range of hose couplings, so the pump can connect with existing installations.
